## **Kerself Group: Saem signs a contract with the Siciliani Carne group for a 1 MW multi-array roof-top plant**

Prato di Correggio, 11 March 2010 – Kerself S.p.A., a company listed on the Italian Stock Exchange's STAR segment and Italy's leading player in photovoltaic solar plant engineering, development, production, installation and distribution, says that its Saem subsidiary has signed a contract with the Siciliani Carne group for a turnkey roof-top photovoltaic solar plant composed of 16 arrays at the group's Palo del Colle facility in the province of Bari. The plant, for approximately 1 MW, will be constructed with Helios Technology modules (Kerself Group).

Construction will be completed by 30 June 2010. The contract could be the first in a series of roof-top photovoltaic plants Siciliani Carne is considering for other group facilities.

*The **Kerself Group** is a leading player in photovoltaic solar plant engineering, development, production, installation and distribution in Italy and Europe.*
